OBJECTIVE

B.Tech CSE graduate with expertise in back-end development, cloud deployment, and full-stack applications. Proficient in Java, C/C++, and SQL. Skilled in designing scalable solutions, API development, and database management. Passionate about leveraging technical skills to solve complex problems in innovative and collaborative environments.

EDUCATION

Techno India University

B.Tech (Computer Science and Engineering)

– Cumulative GPA: **8.25/10.0**

Kolkata, West Bengal

August 2020 – August 2024

TECHNICAL SKILLS

- **Programming Languages:** Java, C/C++, Node.js
- **Databases:** MongoDB, MySQL
- **Web Technologies:** HTML5, CSS3, JavaScript
- **Cloud and DevOps:** Docker, Jenkins, Kubernetes
- **Core Subjects:** DBMS, Object-Oriented Programming(OOPs)

PROJECTS

Minati: Clothing Selling Application

GitHub Link: Minati

Technologies: React, Node.js, MongoDB

- * Developed a full-stack clothing selling application using **React** for the front-end, **Node.js** for back-end logic, and **MongoDB** for database management.
- * Implemented an **Admin Panel** to allow administrators to manage products, orders, and user activities.
- * Designed a responsive user interface for seamless browsing, filtering, and purchasing of products.
- * Integrated real-time inventory and order status updates to enhance the user experience.
- * Ensured secure user authentication and robust role-based access control.

FitBit Web Application

GitHub Link: FitBitApp

Technologies: React, Node.js, MongoDB

- * Developed a web application to track fitness metrics, using React for the front-end and Node.js for back-end logic.
- * Integrated MongoDB for efficient storage.
- * Focused on creating a responsive and user-friendly interface for real-time analytics.

Heart Disease Prediction Model

GitHub Link: Heart Disease Prediction App

Technologies: Python, Flask, Kaggle

- * Developed a machine learning model achieving **92% accuracy** in predicting heart disease.
- * Deployed the model as an API using Flask and hosted it on Heroku.
- * Built an Android application for a seamless user interface.

CERTIFICATIONS

- **IBM SkillBuild Certification** - Data Science and Python Programming
- **SAP ABAP Certification**
- **C++ and Python Certifications** - UpSkill

HOBBIES AND INTERESTS

- Playing Online Games and exploring interactive gaming mechanics.
- Watching web series related to science fiction and technology.
- Learning new backend technologies and contributing to open-source projects.
